SUBJECT INDEX

Acetates, shrinkage temperature in relation to 193
Acrylic polymers
containing polyamides and vinyl aldehydes, as chrome exhaustion aids and leather impregnants 308
fillers, in leather substitutes from plastics or rubbers 61
in finishing 189
finishing with 190
lubricants, in tanning 31
oligomers, retanning with 29
Acrylonitrile, graft copolymers with butyl methacrylate or styrene on casein 99
Acrylonitrile-butadiene copolymer, finishing with 190
Actinomycetes, of soil, leather hydrolysis by 235
Adhesives, polyurethanes, for leather 234
Adinopus breviflora, fruit, tanning pretreatment with paste of 22
Adipic acid
esters with oleyl diethanolamide, complexing of, with chrome leather 232
esters with oleyl diethanolamide, reaction products with chromium chloride, for fatliquoring and tanning 233

Glutaraldehyde
in bating 20
coatings, on glazed goatskin upper leather, for wet rub fastness 99
tanning with chrome and, fatliquoring in relation to 194
tanning with chrome and, of pigskin 193
Goatskin
glazed upper leather from, coated with chromium sulfate or glutaraldehyde, wet rub fastness of 99
ready-to-finish crust leathers from, by wattle-aluminum tanning 278
semichrome leather from E.I., increasing chrome content of 118
GOFFIN, REINHOLD, Biography 275
Graft polymerization
of acrylates on gelatin, for finishes 232
on collagen and gelatin, review on 62
Graft polymers, in finishing 189

Hair, human, keratin of, solubilization of, by reduction with sodium thioglycollate ... 97

crust, ready-to-finish, from aluminum retanned goatskins 278
Himeji white and Koshu-Inden 192
hydrolysis of, by soil Actinomycetes 235
impregnation of, with acrylic polymers containing polyamides and vinyl aldehydes 308
manufacture of, continuous processing in 312
manufacture of, cost calculation for, energy in 257
manufacture of, energy consumption in 23
manufacture of, trends in 189
physical testing of, by German Society 307
pigskin suede, draping properties of, for clothes 232
printed two-tone upholstery, from bag tanned cowhides 180
reversible 58
semichrome, from E.I. goatskins, increasing chrome content of 118

shrinkproof, chrome tanning process for 191
thermal stability of aluminum-tanned, dicarboxylic acid effect on 186
upholstery, quality and dyeability of, chrome tanning effect on 328
upholstery, vessels used in manufacture of 306
upper, frequency of complaints about 328
washable suede garment, from light weight buffalo and cow hides 100
white and boil-stable brown, titanium tanning for 237
white upper, manufacture of 306
Leather industry
computer applications in, review on 235
dyes in, of India 232
energy conservation in 187
energy for, from cogeneration 187
future of, in India 98
health hazards in 187
Leather substitute
fabric-type, from textiles 27
from plastics or rubbers containing acrylic polymer fillers 61
from polyamide fibers and polyurethanes, biodegradation of, by molds 172
from polymers and textiles 28, 32, 60
substrates for, synthetic fiber and textile composite sheets for 25
LEON PAZ, G. E., Biography 15
Leucocyanidin, from Saraca Ashoka 278
Lightfastness
of leather, lubricant effect on 20
of nitrocellulose finishes 328
Liming
cascade process for 235
in low-sulfide liquor followed by sulfide oxidation with hydrogen peroxide 57
re-, of fresh pigskins, sodium hydroxide in 165
Linings, from reject calf leather 260
Lipids, peroxidative changes of, in chick embryo livers exposed to chromium 309
Livers, of chick embryos, chromium toxicity to 309
Lubricants
acrylic polymers, in tanning 31
complexing of, with chrome leather 232
fastness in relation to 192
lightfastness of leather in relation to 20
sulfochlorinated and saponified fatty acids, for furs and leather 57
with tanning properties, from oleyl diethanolamide adipic monesters and chromium chloride 233
Lysyl oxidase, inhibition of, by isoniazid 234

Magnesium chloride, zeolite treatment with, for wastewater filtration 187
Malondialdehyde, formation of, in chick embryo livers exposed to chromium 309
Marmot, furs, analysis of 21
Masking agents, citrates, for titanium sulfate tanning solutions 97
Metabolism, of Penicillium lapidosum, chromium effect on 62

Methyl gallate, in *Casuarina equisetifolia* fruit and wood 306
Methyl methacrylate, graft copolymers with gelatin, for finishes 232
MILLER, ALBERT T., Biography 121
Milling, of suede splits and upper leathers 258
Mink, furs, analysis of 21
Molds, polyurethane leather substitute biodegradation by 172
Molecular structure, polymeric, of collagen 186
MOORE, JOANNA M. HOLDEN, Biography 121

NAYUDAMMA, Y., Obituary 254
Nitrocellulose

Oleyl diethanolamide
adipic monoesters, complexing of, with chrome leather 232
adipic monoesters, reaction products with chromium chloride, for fatliquoring and tanning 233
Opossum, furs, analysis of 21
Optimization
of beamhouse 21
of rawstock management, model for 23
Oxalates, shrinkage temperature in relation to 193
Oxidation
of chrome salts and chrome sludge in various soils 257
of collagen, with pyridinium chlorochromate 186
of sulfides in liming effluent by hydrogen peroxide 57

Paper, cationic dye mixtures for 59
Penicillium lapidosum, metabolism of, chromium effect on 62
PERDUE, CARL, Fred O'Flaherty Service Award to 231

PERRIN, DANIEL L., Biography 94
Phenol, in hide curing and preservation 236
Phenols, interaction with aluminum and collagen in combination tanning 21
Phenolsulfonic acid, condensates, in bating 20
Phosphoric acid, zeolite treatment with, for wastewater filtration 187
Physical testing, of leather by German Society 307
PIERCE, JOHN H., Obituary 56
Pigskin, processing of fresh 165
Plastics, leather substitutes from, containing acrylic polymer fillers 61
Polar substances, determination of, in leather fats and oils 9
Polishes, for shoes, evaluation of 100
Polyamide fibers, leather substitutes from polyurethanes and, biodegration of, by molds 172
Polyamides, acrylic polymers containing vinyl aldehydes and, as chrome exhaustion aids and leather impregnants 308
Poly(caprolactone) triol, castor oil transesterified by, polyurethanes from 259
Polyelectrolytes, collagen as 186
Polymers
  collagen as 186
  in finishing 189
  fur treatment with surfactants and, for soft feel 57
  leather substitues from textiles and 28, 32, 60
Poly(methyl methacrylate), finishing with 190
Polystrene, finishing with 190
Poly(vinyl acetate), finishing with 190
Poly(vinyl alcohol), finishing with 190
Poly(vinyl chloride), finishing with 190
Printing, roll, of leather 293
Process optimization, of energy conservation in leather industry 187
Process simulation, for rawstock management optimization 23
Prosthetic materials, from collagen 195
Proteinase
  alkaline, immobilization of, on bentonite 259
  alkaline, immobilization of, on bentonite, stability and characteristics in relation to 309
  delimed hide treatment with, scanning electron microscopy in relation to 97
Protocatechuic acid, in *Casuarina equisetifolia* fruit and wood 306
Pseudomonas, chrome bioaccumulation by 308
Pungam oil, sulfitation of, for fatliquoring 233
Pyridinium chlorochromate, collagen oxidation with 186
Pyrolysis, finish identification by gas chromatography and 194

Quercetin
  in *Casuarina equisetifolia* fruit and wood 306
  from Saraca Ashoka 278

Rabbit skins, processing and uses of, in less developed countries 93
RAMSHAW, JOHN A. M., Biography 226

RETZSCH, CLINTON E., Obituary 218
Rice-bran oil, sulfitation of, for fatliquoring 233
Ricinoleyl diethanolamide
adipic monoesters, complexing of, with chrome leather 232
adipic monoesters, reaction products with chromium chloride, for fatliquoring and tanning 233
Roll coating, in finishing 20
Roller coating, finishing by 190
Rubber, leather substitutes from, containing acrylic polymer fillers 61
Rumex hymenosepalus Torrey, tannin extraction from, temperature effect on 1

Salicylic acid, catalysts, in epoxy tanning 309
Sand, sludge treatment with 188
Saraca Ashoka
bark, tannins from 260
tannins from 278
Serum albumin, steroid binding by 234
Shaving, machines for 257
Sheepskin, woolskins, aluminum tanning of 189
Shoes
insoles, stiffening of 27
polishes for, evaluation of 100
Shrinkage temperature
of aluminum-tanned leather, dicarboxylic acid effect on 186
organic anion effect on 193
β-Sitosterol, in *Casuarina equisetifolia* fruit and wood 306
Sodium bisulfite, in unhairing without sulfide 47
Sodium borohydride, in unhairing without sulfide 47
Sodium hydroxide
in reliming of fresh pigskins 165
in unhairing without sulfide 47
Sodium oxide, sludge treatment with 188
Sodium thioglycollate, solubilization by, of human hair keratin 97
Solubility, of chrome salts and chrome sludge in various soils 257
Solvents, organic, in leather waterproofing 22
Splitting machine, for hides 30
Standards, legal and permissive, for wastewater treatment by tanneries, EPA guidelines for 137
Steroids, binding of, by proteins 234
Styrene
graft copolymers with acrylonitrile on casein 99
graft copolymers with gelatin, for finishes 232
Sulfitation, of non-drying oils, for fatliquoring 233
Sulfurization, of fish oils, for leather treatment 234
Surfactants
fur treatments with polymers and, for soft feel 57
nonionic, in deliming and bating of fresh pigskins 165

Surgical goods, from collagen 195
Surgical materials, collagen sheets 306
Symposium, on finishing 279
Synthetic fibers, composite sheets, as substrates for leather substitutes 25
Synthetic tanning materials
amphoteric polymeric, dyeing in relation to 307
biodegradation of 187
in retanning of goat- and sheepskins 100

Tanning
with aluminum salts and tannins, model reactions for 258
with aluminum sulfate, of woolskins 189
aluminum-vegetable combination, collagen interaction with aluminum and phenols in 21
bag, for printed two-tone upholstery leather 186
cascade process for 235
colloidal and polyelectrolyte properties and molecular structure of collagen in relation to 186
of dechromed wet-blue hides 188
drums for 28
dye fixation on leather in relation to 260
with epoxy resins, catalyst effect on 309
fixation of fats and oils by leather in relation to 258
lubricants in, acrylic polymers as 31
pretreatment with past of *Adinopus breviflora* fruit 22
re-, with acrylic oligomers 29
re-, fastness in relation to 192
re-, of goat- and sheepskins with syntans 100
re-, with polyurethanes, dyeing in relation to 261
re-, of upholstery and upper leather 23
with titanium salts, alone and combination 233
with titanium salts, for white and boil-stable brown leather 237
vessels for, in manufacture of upholstery leather 306
wattle-aluminum, of goatskins for ready-to-finish crust leathers 278
Tanning materials
with lubricant properties, from oleyl diethanolamide adipic monoesters and chromium chloride 233
titanium sulfate solutions, masking agents for, citrates as 97
Tannins
in *Casuarina equisetifolia* fruit and wood 306
of *Cleisthanthus collinus* and *Terminalia arjuna* 259
condensed, from Saraca Ashoka 278
determination of, by precipitation with lead acetate 99
extraction of, from Canaigre roots, temperature effect on 1
interaction with aluminum and collagen in combination tanning 21
reaction products with epoxy resins 28
from Saraca Ashoka bark 260
TASSET, DAVID, G., Biography 243

Tentering, apparatus for, for hides 30
Terminalia arjuna, tannins of 259
Textiles
cationic dye mixtures for 59
composite sheets, as substrates for leather substitutes 25
fabric-type leather substitutes from 27
leather substitutes from polymers and 28, 32, 60
Thermal stability, of aluminum-tanned leather, dicarboxylic acid effect on 186
Titanium salts
tanning with, alone and combination 233
tanning with, for white and boil-stable brown leather 237
Titanium sulfate, tanning solutions, masking agents for, citrates as 97
Toxicity
of chrome to chick embryos 259
of chromium to chick embryos 278
of chromium, to chick embryo livers 309
TRAEUBEL, HARRO, Biography 275
Triamcinolone acetonide, collagen aggregation prevention by, in keloid tissue 99
2,4,6-Tris (dimethylaminomethyl)phenol, catalysts, in epoxy tanning 309
Trisodium phosphate, in unhairing without sulfide 47

Ultrastructure, of bovine corium collagen, age-related changes in 106
Unhairing
with enzymes, for low-sulfide effluent 57
without sulfide, chemical systems for 47
Urea, in unhairing without sulfide 47
Urethane polymers
adhesives, for leather 234
from castor oil transesterified by poly(caprolactone) triol 259
coating of split leather with, by transfer process 22
in finishing 62, 189, 191
leather substitutes from polyamide fibers and, biodegradation of, by molds 172
in retanning, dyeing in relation to 261

VANBENSCHOTEN, JAMES, Biography 243
Vinyl aldehydes, acrylic polymers containing polyamides and, as chrome exhaustion aids and leather impregnants 308

Wastes
incineration of 21
upgrading of 21
Wastewater treatment
activated sludge, degradation of p-nitrophenol by 81
chemical and biological 188
chrome recovery 258
chrome sludge from, solubility and oxidation of, in various soils 257
EPA guidelines for 137

filtration, ammonium compound removal by zeolites 188
filtration, zeolite treatment with magnesium chloride and phosphoric acid for 187
recycling of chrome liquors 307
sludge, biogas and fertilizers from 188
sludge, biological oxygen demand and proteolytic strength of, chrome effect on 307
sludge, dewatering of, pressure filters for, design and performance of 63
sludge, disposal and use of 188
sulfide oxidation, by hydrogen peroxide 57
of vegetable tanning effluent, anaerobic-aerobic process for 101
Waterproofing
of leather, by fatliquoring 98
of leather, organic solvents in 22
Wattle bark, extract, tanning of goatskins with aluminum and 278
Wearing apparel, pigskin suede leather for, draping properties of 232
WEBSTER, R. M., Biography 184
Wet rub fastness, of glazed goatskin upper leather coated with chromium sulfate or glutaraldehyde 99
Wool, dyeing pretreatment of, with assists and resists 189

Zeolites
in ammonium compound removal from wastewater 188
treatment of, with magnesium chloride and phosphoric acid 187
